

<Name> Project

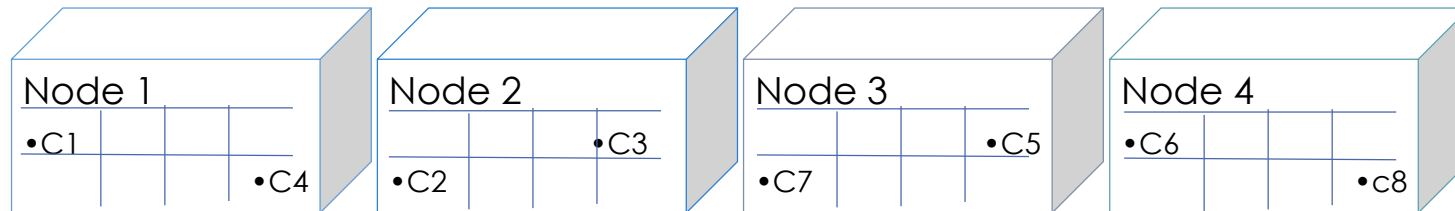

Drawings for documentation

This diagram needs to show:
1 Normal Hadoop
2 Product enhancements on Hadoop

Hadoop

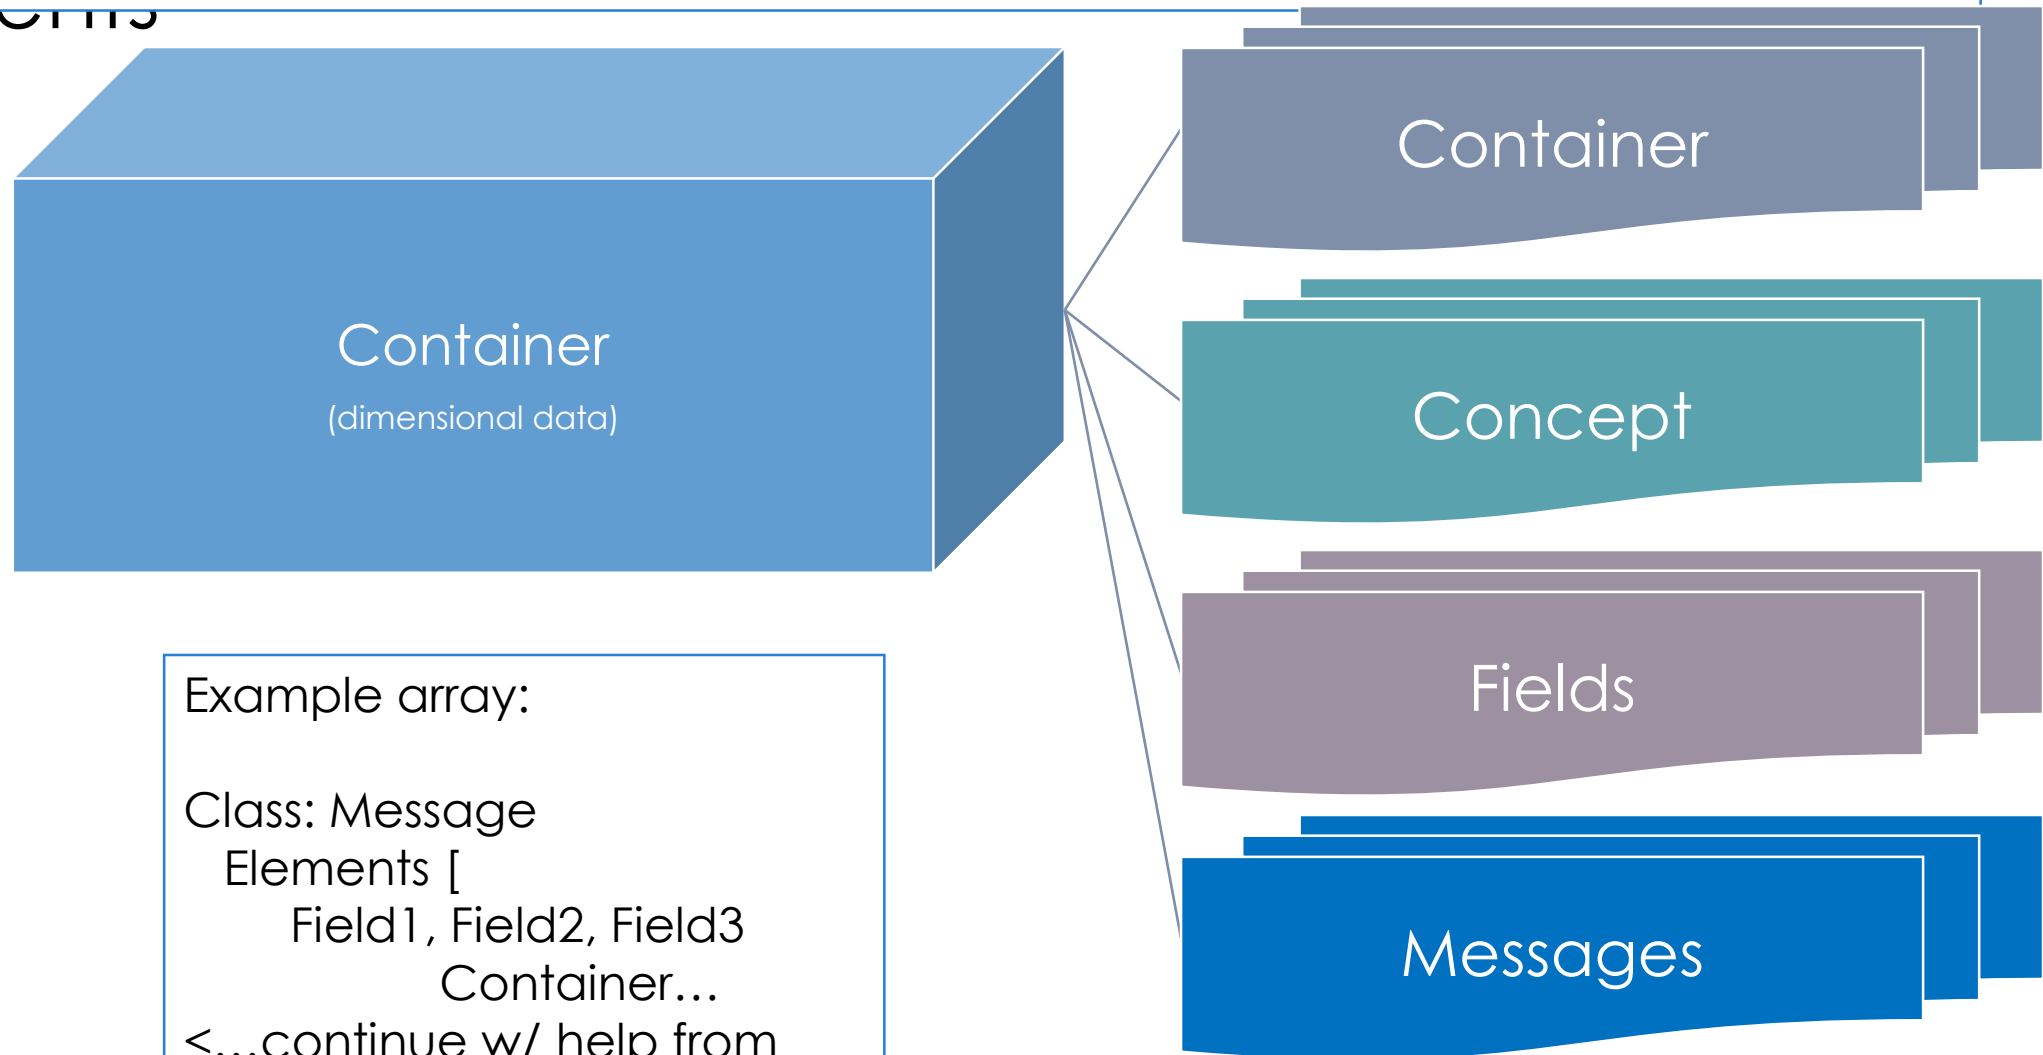

Use replication across nodes

Store it in tiny chunks in each node

Model Hierarchy

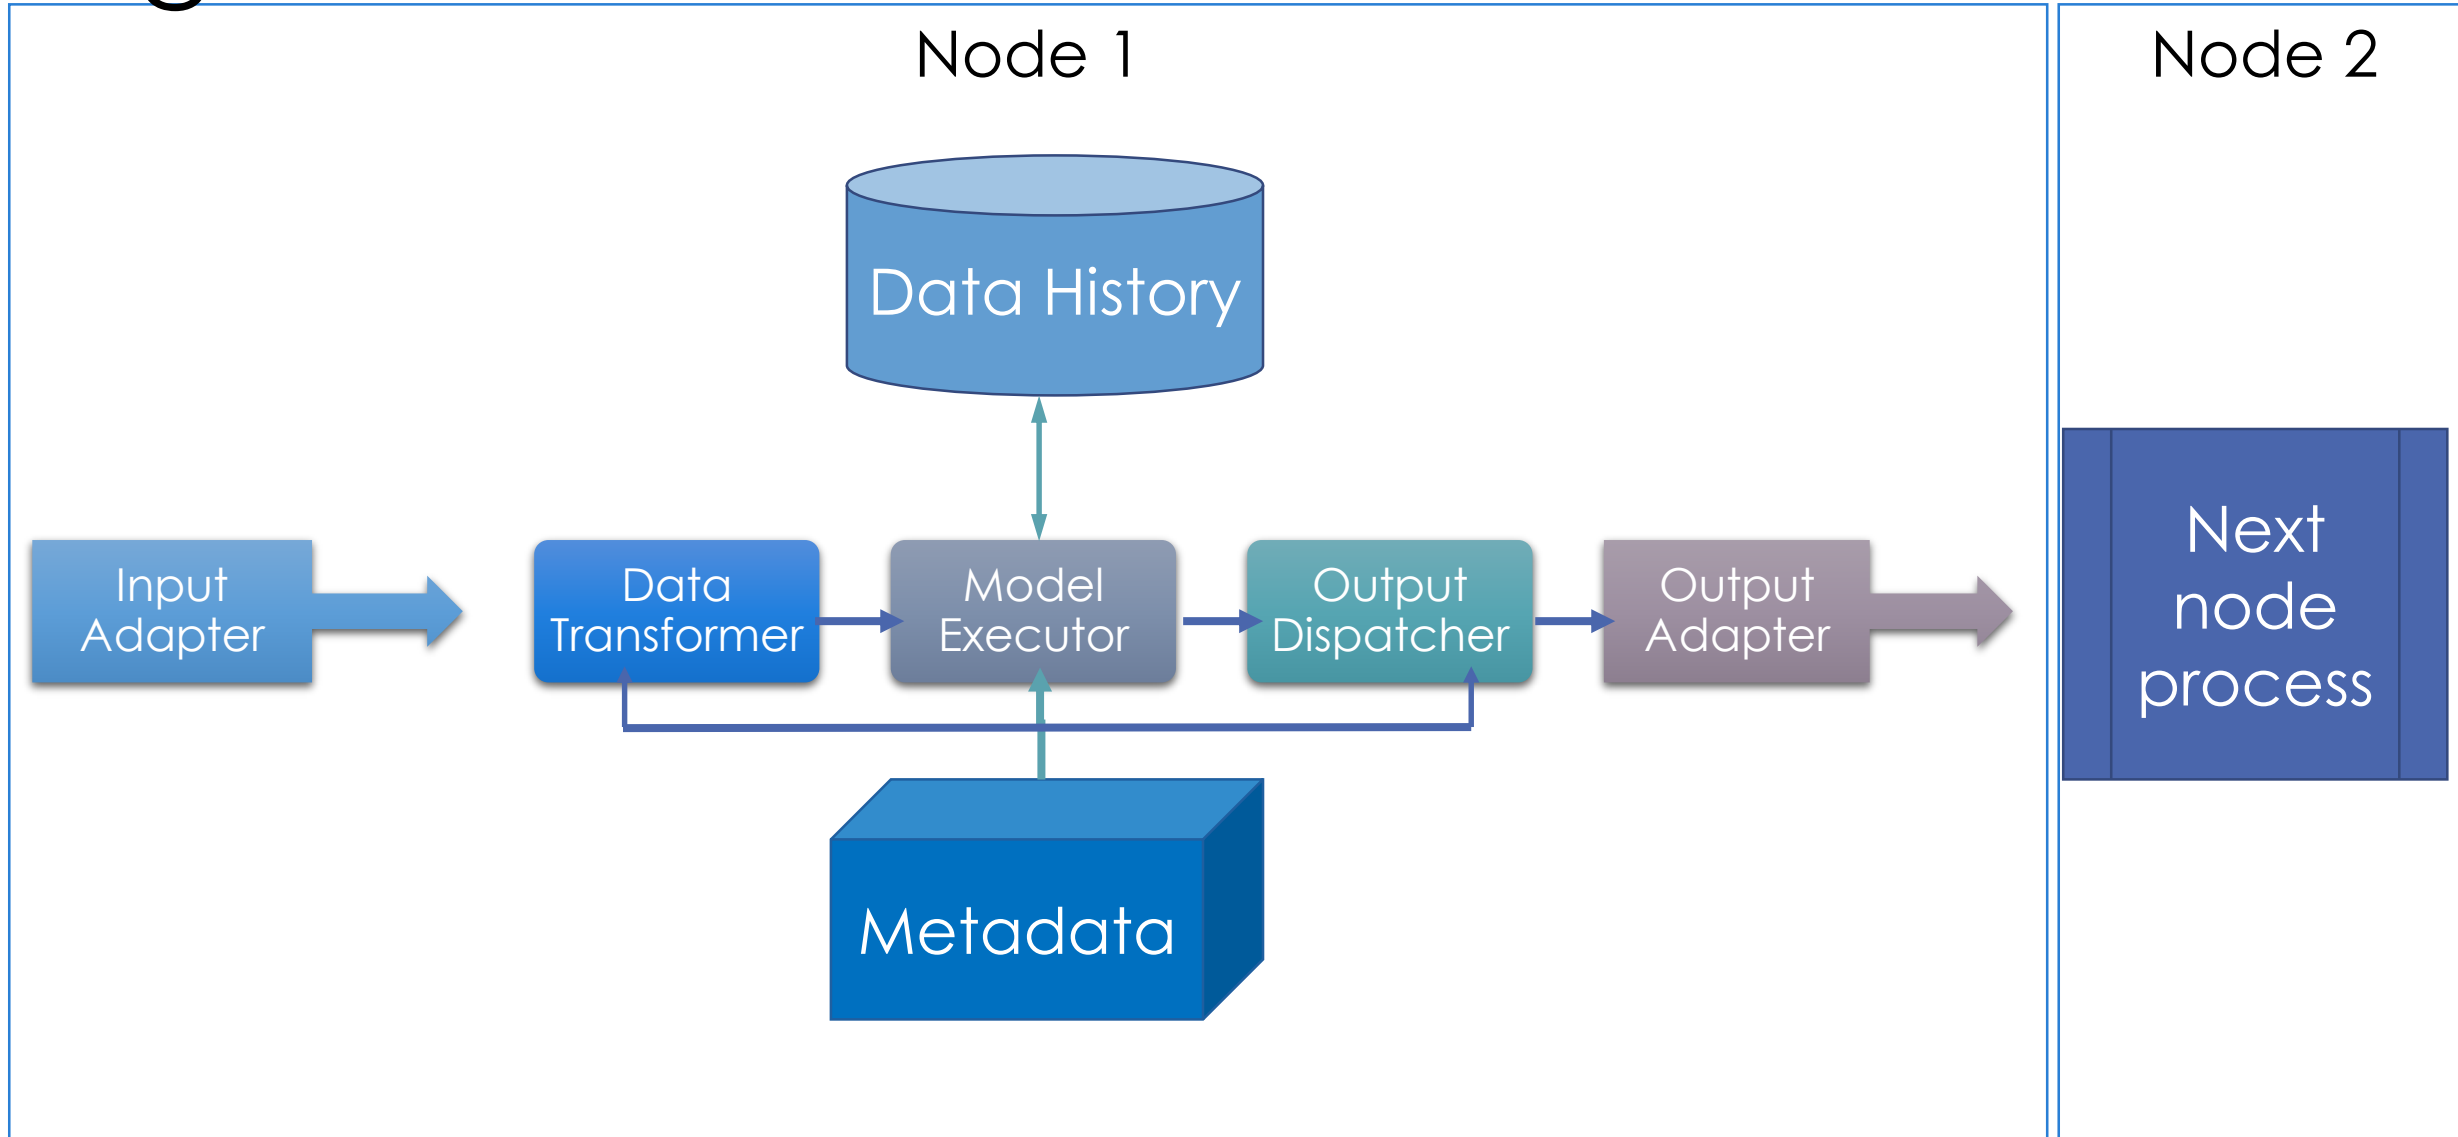

This diagram needs SME input to:
1 deepen to first layer of complexity
2 accurately represent our model (highest level)

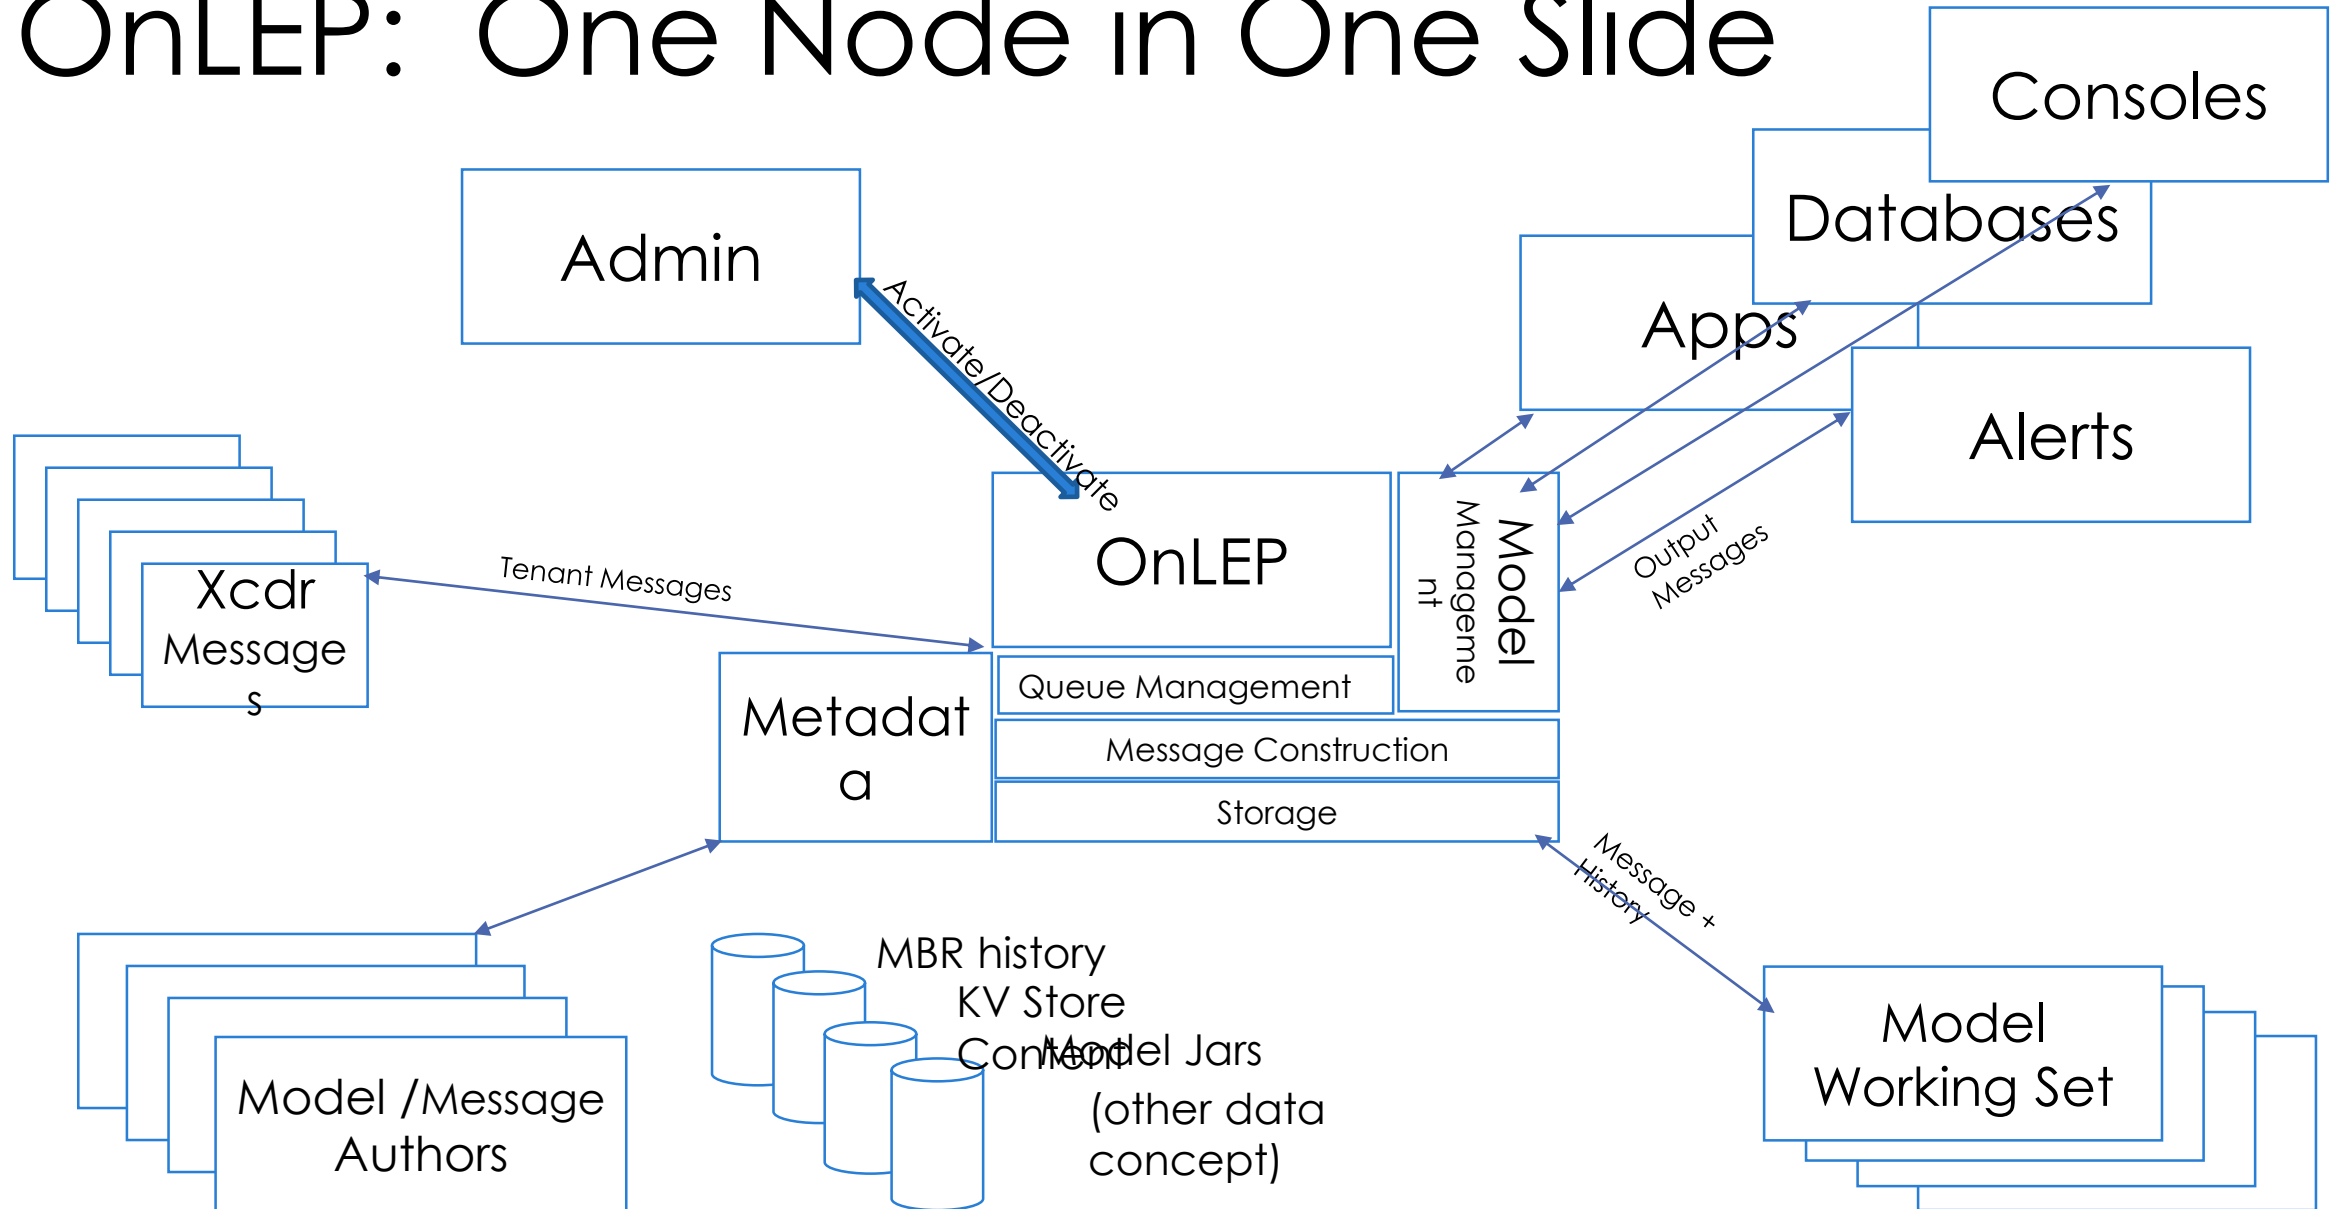

Example array:

```
Class: Message
Elements [
    Field1, Field2, Field3
    Container...
<...continue w/ help from
SME>
```

Engine Execution Flow on a Node

OnLEP: One Node in One Slide

<Product Name> Architecture
